

Claudius Peters PACPAL

Automatic Truck Loader

Our advantages

- Automatic Truck Loading equipment in state-of-the-art design
- Compact and modular machine concept
- Optimized energy consumption with most innovative drive technology
- Capacity up to 4800 bags/h with 50 kg/bag

Operational

- Suitable for handling of most common bags and layer types
- Automatic type, suitable to load on most common trucks and other vehicles
- Low degree of maintenance = high degree of availability
- Easy interactive operation and human machine interface (HMI)

Production basics

- Capable for cement and other building materials
- Bag weight from 25 - 50 kg
- Traveling range variable
- Bag types: Paper/PP/PE valve, FFS and others
- Individual solutions with conveying part (Bulk or bag) upon request

Packing systems for
Cement, Gypsum
and other Building
Materials

Automatic Truck Loader

Main voltage:	380 up to 690 V 3 phase
Frequency:	50 or 60 Hz
Control voltage:	24 V DC
Power connection value:	FTL 25 kW (main machine)
Motor protection class:	IP54 or higher
PLC types:	Siemens (Standard), Rockwell, Schneider, others on request

**Bulk Handling,
Packing, Palletizing
and Dispatch
from one Source**
